The Erasmus Mundus Master in Wine Tourism Innovation (WINTOUR) offers a truly integrated study program that takes advantage of the tourism and oenology expertise of three universities and regions of Europe. These universities are located in highly attractive touristic areas, recognized with the label of UNESCO Human Heritage, and have a long tradition in wine, producing specialty wines such as sparkling, fortified, aged red and sweet.

The objectives of the WINTOUR program are to:

› Prepare broadly trained, highly adaptable, qualified professionals for the tourism and wine industries. These graduates may then promote innovative wine tourism developments to generate added value through increased income and recognition of this sector.

› Provide students with multidisciplinary and multi-sectorial knowledge and training that increases their understanding of wine-making and tourism management.

› Promote high-quality, practical training in entrepreneurship and company management via the organization of internships within the non-academic sector.

› Ensure the effective integration and networking activities of students within the socio-cultural and professional environment during their period of training.

French or Portuguese, the languages of the organizing institutions) are important elements in the selection process.
